NOMINATIONS MADE FOR CITY CHARTER COMMISSIONERS

PETITIONS OF FIVE MEN FILED SATURDAY EVENING — ELECTION IS TO BE HELD ON FEBRUARY 9.

By petitions signed by qualified voters to the number of 25, were filed with City Clerk A. McF. Porter late Saturday placing in nominations the names of five men to be voted upon in the election to be held February 9, to prepare and submit a charter for the city of Daytona. The names placed in nomination are:

W. M. HANKINS.
HENRY SCHMIDT.
E. L. BOND.
GEO. H. GARDINER.
GEO. F. CROUCH.

The election will be held in conformity with the proclamation of the city council under authority of the Farris law, enacted by the legislature of 1915. The date fixed for the election is the day following the election to vote for three commissioners under the special commission charter enacted by the same legislature that created the Farris law.

The duties of the five men to be elected February 9 is to prepare a charter and submit to the people for ratification. It is generally conceded that the charter recently ratified by the people of Daytona by a majority of only one vote has many serious defects and it is more than likely that the charter to be prepared by the charter board will be a commission-manager charter on lines similar to the commission-manager charter now in effect in St. Augustine.

SOUTHLAND CHANGES WHEELS IN ONE HOUR

The steamer Southland, the largest and fastest vessel of the Nutting excursion boat line, spent just one hour this morning on the ways at McDonald's ship yard while her bent and torn propeller was replaced by a new one.

The Southland is 66 feet over all with a 16-foot beam. She boasts a speed of 11 miles per hour and operates from Daytona on the Tomoka river route.

Every day is summer in Daytona.

NATION APPEARS TO AGREE WITH CHIEF EXECUTIVE IN PREPAREDNESS PROGRAM

(By International News Service.)

CHICAGO, Jan. 31.—President Wilson made a brief stop here this morning and took occasion to deny the report that he had decided to support a measure to keep Americans off belligerent ships.

The president expressed the belief that his speeches are having the desired results and that the people of the United States are with him in his preparedness program.

A big crowd at the station cheered when President and Mrs. Wilson took a constitutional walk along the platform. He speaks at Milwaukee this afternoon. Remembering the attack on Roosevelt in that city, the authorities are taking every precaution.

PERSONAL

Effective March 1st. The price of the Chalmers Six-40 will be $1,450 F. O. B. Detroit. This is an increase of $100 over the present price. It is made necessary by the sharp rise in cost of raw materials.

Aluminum, which sold for 19 cents a pound only a few months ago, now brings 53 cents.

Copper has risen from 14 cents to 24 cents.

Vanadium Steel, a year ago brought $1.85 a pound. Now sells for $8.50.

High-Speed Steel, formerly $1.05 a pound, now is worth $3.35.

Leather, formerly 20 cents a foot, now brings 33 cents. And so on.

All told, it costs $118.22 more in raw material to build a Six-40 than it did some months ago. As this amount is considerably in excess of our net profit per car, only two courses were open to us.

One was to raise the price.

The other was to lower the quality.

To follow the latter course, meant a "one-year" car. This kind of an Automobile Chalmers has never built and never will build.

Therefore, a rise in the price was the only procedure possible.

We regret that an increase in price is necessary, but we feel that other manufacturers of Automobiles will be forced to either to increase the price or use a lower grade of materials.

For it is not possible to buy superior products in the open market for any less price than Chalmers pays.

We think it only fair to those who have planned to purchase the Six-40, and have been quoted the $1,350 price, to take this opportunity of saying that we will accept orders at that price up to midnight February 29. Thereafter the price of $1,450 will prevail.

Not in Terms of Endearment.

"I have observed," philosophically said Professor Pate, "that most of us talk about our neighbors in much the same way that we do about the dandelion."—Kansas City Star.

The Heroism Test.

To stand with a smile upon your face, against a stake from which you cannot get away—that, no doubt, is heroic. But the true glory is resignation. To stand unchained, with a perfect liberty to go away, held only by the higher claims of duty, and let the fires creep up to the heart—that is heroism.—F. W. Robertson.

When Florence Was Capital.

Florence has had some previous association with the Italian court, for in 1864 it was made the temporary capital of Italy, and in the following year the king and court removed there. In the same year the first assembly of the Italian parliament took place there. Not until 1871 did the government remove to Rome as the capital of Italy.

PERSONAL

Effective March 1st. The price of the Chalmers -40 will be $1,450 F. O. B. Detroit. This in an in- ase of $100 over the present price. It is made cessary by the sharp rise in cost of raw materials.

Aluminum, which sold for 19 cents a pound only a months ago, now brings 53 cents.

Copper has risen from 14 cents to 24 cents.

Vanadium Steel, a year ago brought $1.85 a pound. w sells for $8.50.

High-Speed Steel, formerly $1.05 a pound, now is rth $3.35.

Leather, formerly 20 cents a foot, now brings 33 nts. And so on.

All told, it costs $118.22 more in raw material to build Six-40 than it did some months ago. As this amount considerably in excess of our net profit per car, only o courses were open to us.

One was to raise the price.

The other was to lower the quality.

To follow the latter course, meant a "one-year" car. is kind of an Automobile Chalmers has never built neved will build.

Therefore, a rise in the price was the only procedure ssible.

We regret that an increase in price is necessary, but feel that other manufacturers of Automobiles will forced to either to increase the price or use a lower de of materials.

For it is not possible to buy superior products in the n market for any less price than Chalmers pays.

We think it only fair to those who have planned to chase the Six-40, and have been quoted the $1,350 e, to take this opportunity of saying that we will pt orders at that price up to midnight February 29. after the price of $1,450 will prevail.

The Heroism Test.

To stand with a smile upon your face, against a stake from which you cannot get away—that, no doubt, is heroic. But the true glory is resignation. To stand unchained, with a perfect liberty to go away, held only by the higher claims of duty, and let the fires creep up to the heart—that is heroism.—F. W. Robertson.

When Florence Was Capital.

Florence has had some previous association with the Italian court, for in 1864 it was made the temporary capital of Italy, and in the following year the king and court removed there. In the same year the first assembly of the Italian parliament took place there. Not until 1871 did the government remove to Rome as the capital of Italy.

REV. W. J. DREW IS ADDED TO JUDGES OF NEWS' MOTTO CONTEST

FOUR WELL KNOWN MEN OF DAYTONA WILL PASS ON SUGGESTIONS SUBMITTED FOR MOTTO FOR BURGOYNE CASINO.

The Judges:
Com. C. G. Burgoyne.
Col. C. M. Bingham.
F. N. Conrad.
Rev. Wm. J. Drew.

At the suggestion of Commodore C. G. Burgoyne, another name has been added to the list of judges to pass upon the suggestions submitted for a name for Burgoyne casino and for which the News offers $100 in gold. Commodore Burgoyne will sit in an advisory capacity with the judges and the actual selection will be made by the other three members. The acquisition to the list of judges is Rev. William J. Drew, pastor of the First Congregational church. The personnel of the judges nominated by the News is as follows: Commodore C. G. Burgoyne, advisory chairman; Col. C. M. Bingham, F. N. Conrad and Rev. Mr. Drew.

Contestants should bear in mind that all contributions must bear a postmark of not later than January 31, and that the judges will pass on the contributions February 1.

Here is another assortment submitted yesterday:

"Welcome! rich and poor, of every clime,
To enjoy our weather, and smile sublime;
As we gather by the Halifax river,
Let's all exclaim! 'Long live the giver!'"

"Daytona's music lovers just appreciation;
The greatest joy, of our generous benefactor."

"Fanned by gentle breezes from Halifax river,
Stands the beautiful casino worthy of renown;
An honor to its generous and noble giver,
The glory and pride of our town."

"Look upon me with great expectation,
For liberality is my foundation,
To afford you much pleasure is my determination."

"To gild refined gold, to paint the lily,
To throw a perfume on the violet,
To smooth the ice, or with taper light
The beauteous eye of heaven to garnish,
To wasteful and ridiculous excess."

"The lark's on the wing,
The snail's on the thorn;
God's in His heaven—
All's right with the world."

"To summer winds that bring to me,
Aeolian strains of minstrelsy,
Catching the notes of the glad refrain,
And singing them over and over again."

"There's ever a song somewhere, my dear,
A song to lighten the load;
May you find here, the needed cheer,
In this house beside the road."

O, cruel world! Of what have we been guilty that such rot is thrust upon us? (Referring to motto directly following). Sender explains it is for the particular benefit of the out-of-town subscription list.

"If you could see the pretty girls,
We have with smiles on every corner;
You'd pack your grip, grab your hat,
And light out for Daytona."

"And ever against eating cares,
Lap me in soft Lydian airs,
Untwisting all the chains that tie,
The hidden soul of harmony."

"Welcome, welcome, friends today
With happy hearts we greet you,
May we all united be,
Filled with hope and charity."

"Built by our friend with heart o'erflowing,
His name in history will ever belong;
Daytona's most beloved Commodore G. Burgoyne,
Who gives us love, laughter and song."

"Come away, come away, come away!
Come where the flowers bloom so fair.
"Come away, come away, come away!
Come where sweet music fills the air."

THE MOST REMARKABLE CHURCH IN THE WORLD

The most unique little church in the world rests on the side of an impassable gulf in the heart of a small island of the Madeira group. The place of worship has a floor space of but 7 by 9 feet.

The building belongs to the leper colony which is isolated from all the rest of the world on one of the most beautiful and the most horrible spots on the surface of the earth. The island is beautiful because it is set in the center of a turquoise sea and boasts a glistening white beach backed with giant forests stretching away to the dull blue of a distant range of peaks. And it is horrible because of the specter of leprosy under which its inhabitants are forced to live.

Four times each year a cavalcade of donkeys heavily laden with provisions winds up to a gigantic chasm which marks the death line between the clean and the filthy, and four times a year the lepers eagerly gather up the bundles tossed to them from the living world across a bottomless split in the ear.

The first article of this series told about our home church—the Tourist Union church—which is really a unique place of worship, but the writer wonders if any of its members, in gazing out over the endless Atlantic, ever think of the pitiful little house of God which hangs 'twixt earth and sky in a strange land of beauty and horror.

SPENCER.

Why They Fire 101 Guns.

The origin of the English royal salute, which consists of 101 guns, is explained as follows: It was originally decreed that the sovereign should be saluted with 100 guns, but once when the duke of York, afterward William IV, was being greeted by the fleet the officers in charge lost count and ordered another round to be fired to make sure.

The "SILENT SMITH"
—Model 8 shows what should **now** be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.

Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed—Insures new place of impact for each typeface.

Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

The "SILENT SMITH"
—Model 8 shows what should **now** be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the *user* have dictated its construction. The *user* has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.

Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed—Insures new place of impact for each typeface.

Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

PRETTY JAPANESE PARTY AT THE INTEMANN HOME

A very pretty Japanese party was given by Miss Clare Intemann at the home of her parents, Mr. and Mrs. Herman A. Intemann, at 211 North Beach street, Saturday evening. Outselling Any Other Car of Its Size —Virtually Two for One

Here is the value—now even greater—which has dominated the automobile market for the last eight months—steadily, overwhelmingly.

Here is the car with a performance record of unapproached magnitude—more than 60,000 in every-day service in the hands of owners.

Never before has the purchaser had so well founded, so emphatic, so conclusive a popular value-verdict to tell him which car to buy.

Yet we reduced the price and improved the car.

It has better upholstery.

The electrical control box on the steering column is operated by buttons instead of switches.

And it has the very latest en bloc type motor with a smooth flow of abundant power and an exceptionally fast "pick-up."

Present conditions are unusual—prices for materials are soaring.

34 DIE AS RESULT OF AIR RAID ON PARIS

(By International News Service.)

PARIS, Jan. 31.—Three more deaths as the result of the great German Zeppelin raid of this city last Saturday night have been discovered. The list of fatalities now stands at 34, while the amount of property loss is large.

It is reported that more bombs were dropped on Paris last night but no serious harm resulted.

M'NEIL BREAKS IN TWO; TOTAL LOSS; HULK LEFT TO ROT

The 120-foot steamer McNeil, owned and operated by the Howard Transportation company, which has been hard and fast aground at Mosquito inlet since January 14, has broken in two. Owing to the steady settling of her stern and the suction of the sand her timbers have at last parted, leaving her a helpless wreck. George F. Crouch, the company's local agent, announces her as a total loss. Her owners probably carry fire insurance but no marine insurance.

She has already been stripped of all movable fittings and cargo, including a small number of orange crates which were taken out of her the day after she struck the bank. The only articles of value remaining are her boiler and engines. The company will remove them in a few days and leave the hull to go to pieces.

The McNeil was built somewhere in Georgia a great many years ago and has ploughed through southern waters ever since. Her last route lay between Jacksonville and Fort Pierce. The steamer went on the bar on Saturday, January 5, when the tide was pretty well flooded. When she first struck there was fully a foot of water around her hull. Today sand measuring three feet in depth has buried her.

Peace.

Nothing can bring you peace but yourself; nothing but the triumph of principles.—Emerson.

Browning Not an Aristocrat.

The Browning vogue and the sale of his books have fallen off perceptibly since it was discovered that the great poet was born and reared in social obscurity. Thus are the highbrows browbeaten by the vulgarians. Yet a Scotch clodhopper remains the literary and lyric aristocrat of northern Europe.—Minneapolis Journal.

Getting on His Nerves.

They say Pat Pierce waked up in the middle watches of the night with a burglar standing over him. "Where's your money?" inquired the burglar. "In my pants hanging over there on the chair," replied Mr. Pierce. The burglar walked over to the chair. "Which pocket?" he demanded. "Oh, dommit!" returned Mr. Pierce, "just take pants and all; you're getting on my nerves."—Macon Telegraph.

R. B. Rogers, of Hilliards, Ohio, who is located in the Staples apartments on First street, in company with Mrs. Rogers and their son-in-law and daughter, Mr. and Mrs. Horace L. Mayne, chartered a launch Sunday and enjoyed an excursion to the inlet, his party also including his sister, Mrs. W. L. Vann of West Magnolia avenue and her family, among whom were Walter Vann and wife and Mrs. Charles Lockwood and children, who are here for the winter. The party enjoyed a pleasant day's outing with picnic dinner at the inlet.

Malaria's Toll in India.

Malaria causes more sickness and death than any other single disease in India.

Two Ideas of the Picnic.

The Hindu term for picnic is said to be, by liberal translation, "fools' feast." But the Anglo-Indian who likes to take his best girl and a basket of indigestible edibles upon an arduous journey to a distant place, to eat delightedly a much worse dinner than he might have at home, has more imagination and a keener zest of life than the native who assumes an air of superiority.

BRETTON INN GUESTS ENJOY BAND CONCERTS

Jas. F. Vining, proprietor of the Bretton Inn, Ormond Beach, has forwarded to the News a check for $10 toward the chair fund for the Burgoyne band casino.

When sending the check Mr. Vining wrote:

"Please add the enclosed check to the Burgoyne fund to show in a small degree appreciation of the pleasure received by our guests through Mr. Burgoyne's munificence."

This generous acknowledgement of the far-reaching pleasure of the [illegible] band concerts was at once transferred by the News to the steadily growing fund for the furnishings for the band casino.

THE WEATHER

The following answer to the dispatch received from the weather man asking this paper to advertise a lost storm and offer a reward reached Daytona early today. Here it is:

"Have just located local storm billed to Daytona, Florida, from the weather man. Wandered out of express office at station. Will forward at once. Due to arrive tonight, or Tuesday at latest. (Signed) Local Agent Cloud and Wind Express company."

Well, there doesn't seem much doubt but what little old Daytona is in for it. If you go to the express office to welcome the arrival of that storm don't forget an umbrella. The storm may arrive early in the evening and catch the city unawares or it may swoop down late at night and drown the whole district.

The rain is in charge of moderate east and southeast winds except when it passes over the northwestern portion of the state, where its carriers will be southerly breezes.

BEATS F.E.C. TRAIN TO SMYRNA IN AUTO

Charles Cook, of this city, established record time to New Smyrna last Friday when he missed southbound train No. 29 in Daytona and chartered an automobile to catch it at the next station.

The ride of 16 miles was accomplished in a little less than 25 minutes, which is going some for the road is curved in many places and bumpy in others. Cook made connections without the least trouble.

Only one unfortunate incident was associated with the race. The driver, who does not care to have his name mentioned, speeded up a trifle too fast along Beach street and Officer Humphreys "pinched" him. He paid his fine.

E. L. POWE APPOINTED POSTMASTER AT DE LAND

DE LAND, Jan. 31.—(Special.)—E. L. Powe, a resident of DeLand for about 30 years and for 25 years local agent for the Atlantic Coast Line railway, has been appointed postmaster of DeLand by President Wilson. Mr. Powe is 61 years of age, a native of Kentucky, a graduate of the Stetson college of law and all around good fellow. He numbers among his friends and supporters for the position to which he has been appointed, a large number of the leading and most influential citizens of DeLand. He is splendidly fitted for the position.

SOCIETY NOTES.

Mrs. T. E. Fitzgerald, of Silver Beach avenue, Daytona Beach, entertained Mrs. Louis Seelbach, of Louisville, Ky., at luncheon Saturday. Mrs. Seelbach is a guest at the Despland for the winter. It is a coincidence that Mrs. Seelbach and Mrs. Fitzgerald met while on a European tour with the Hotel Men's Mutual Benefit association in 1914, and since then have become fast friends.

A birthday surprise party supper was given Mrs. Mathew P. Cornwall at her home on North Ridgewood avenue, Saturday evening, by a few of her most intimate friends, in honor of her birthday anniversary. Ten of her friends assembled to wish her many happy returns, and to sup with her in addition.

Invitations have been issued for a dancing party to be given Friday evening in the Palmetto clubhouse by the Misses Antoinette Foltz, Marguerite Edwards and Emma Wallace in honor of their visiting friends.

OHIO DAY MEETING AT NAUTILUS CASINO

AN INTERESTING PROGRAM OF ENTERTAINMENT HAS BEEN ARRANGED FOR ANNUAL MEETING OF OHIO SOCIETY.

Tomorrow, February 1, will be Ohio day, and the annual meeting and election of officers of the Daytona Ohio society will be held at the Nautilus casino, Seabreeze, at 1:30 p. m.

All Ohio people are invited and urged to attend the meeting and with fair weather there should be a big crowd of "Buckeyes" present, as Daytona was founded by an Ohio man, settled largely by Ohioans and many people from that state are annual winter visitors. Several hundred names have been registered at the Ohio register at the Gillis drug store and in some seasons the number has reached nearly to the thousand mark.

An interesting program has been arranged for tomorrow and will include addresses by Rev. Dr. Charles Frederick Goss, of Cincinnati; Rev. H. W. Hodge, pastor of the First M. E. church of this city; Rev. Wm. J. Drew, minister of the Congregational church; E. M. Condit, ex-president of the Ohio society, and Dr. S. W. Fowler, of Delaware, Ohio, president of the society. Another feature of entertainment will be a monologue by Frank Lee, the entertainer, entitled "An Ohio Man Airs His Views on Woman and the Suffrage Question."

The Nautilus casino is easily reached by the electric car line or by automobile or other vehicle and all Ohio people in Daytona and vicinity who have not already made their plans to do so should now arrange to attend the meeting tomorrow afternoon.

2 FAMOUS BOXERS IN BIG BOUT AT ARCADE

Battling Williams, of Philadelphia, the famous negro boxer who put up such a superb exhibition of skill and "pep" against his worthy opponent, Battling Moore, last Monday, January 24, will meet Ike Griffin, of Savannah, Ga., Tuesday evening, February 1, at 8:45, in a ten-round bout at the Arcade.

Williams weighs 170 pounds; Griffin weighs 172. Each negro boasts of exceptional skill with the gloves and each negro is determined to use every ounce of that skill on Tuesday night. There will hardly be any "loafing" inside the ropes, and judging from last week the audience may expect a lively match.

The managers state again and most emphatically, that they wish every person attending to leave feeling satisfied with the evening's enjoyment. They promise to refund all money if the bout is not what it is cracked up to be.

The Arcade has a seating capacity of 1,000 and a large number of ringside chairs. The room is particularly well designed for an exhibition of boxing and it is believed that one of the largest local audiences in the history of the town will be on hand.

The police department of Jacksonville is diligently working on the case and arrests in connection with the crime are expected shortly.

The 75-foot power yacht Ariel 2nd, hailing from New York, dropped anchor late Saturday in mid-channel just below the south bridge. She is a fast, sea-going vessel, decked over forward of her wheel house. She has luxuriant accommodations in her spacious cabins and a mighty comfortable after deck equipped with a standing awning and cane chairs.

The party aboard consists of C. S. Weston, of Scranton, Pa., owner, Mrs. C. S. Weston and Mrs. W. H. Stone, of the same city. They will, in all probability, spend a day or two more in Daytona waters before dropping down the Halifax bound for southern ports.

THE WEATHER

The following answer to the dispatch received from the weather man asking this paper to advertise a lost storm and offer a reward reached Daytona early today. Here it is:

"Have just located local storm billed to Daytona, Florida, from the weather man. Wandered out of express office at station. Will forward at once. Due to arrive tonight, or Tuesday, at latest. (Signed) Local Agent Cloud and Wind Express company."

Well, there doesn't seem much doubt but what little old Daytona is in for it. If you go to the express office to welcome the arrival of that storm don't forget an umbrella. The storm may arrive early in the evening and catch the city unawares or it may swoop down late at night and drown the whole district.

The rain is in charge of moderate east and southeast winds except when it passes over the northwestern portion of the state, where its carriers will be southerly breezes.

BEATS F.E.C. TRAIN TO SMYRNA IN AUTO

Charles Cook, of this city, established record time to New Smyrna last Friday when he missed southbound train No. 29 in Daytona and chartered an automobile to catch it at the next station.

The ride of 16 miles was accomplished in a little less than 25 minutes, which is going some for the road is curved in many places and bumpy in others. Cook made connections without the least trouble.

Only one unfortunate incident was connected with the race. The driver, who does not care to have his name mentioned, speeded up a trifle too fast along Beach street and Officer Humphreys "pinched" him. He paid his fine.

SOCIETY NOTES.

Mrs. T. E. Fitzgerald, of Silver Beach avenue, Daytona Beach, entertained Mrs. Louis Seelbach, of Louisville, Ky., at luncheon Saturday. Mrs. Seelbach is a guest at the Despland for the winter. It is a coincidence that Mrs. Seelbach and Mrs. Fitzgerald met while on a European tour with the Hotel Men's Mutual Benefit association in 1914, and since then have become fast friends.

A birthday surprise party supper was given Mrs. Mathew P. Cornwall at her home on North Ridgewood avenue, Saturday evening, by a few of her most intimate friends, in honor of her birthday anniversary. Ten of her friends assembled to wish her many happy returns, and to sup with her in addition.

Invitations have been issued for a dancing party to be given Friday evening in the Palmetto clubhouse by the Misses Antoinette Foltz, Marguerite Edwards and Emma Wallace in honor of their visiting friends.

OHIO DAY MEETING AT NAUTILUS CASINO

AN INTERESTING PROGRAM OF ENTERTAINMENT HAS BEEN ARRANGED FOR ANNUAL MEETING OF OHIO SOCIETY.

Tomorrow, February 1, will be Ohio day, and the annual meeting and election of officers of the Daytona Ohio society will be held at the Nautilus casino, Seabreeze, at 1:30 p. m.

All Ohio people are invited and urged to attend the meeting and with fair weather there should be a big crowd of "Buckeyes" present, as Daytona was founded by an Ohio man, settled largely by Ohioans and many people from that state are annual winter visitors. Several hundred names have been registered at the Ohio register at the Gille drug store and in some seasons the number has reached nearly to the thousand mark.

An interesting program has been arranged for tomorrow and will include addresses by Rev. Dr. Charles Frederick Goss, of Cincinnati; Rev. H. W. Hodge, pastor of the First M. E. church of this city; Rev. Wm. J. Drew, minister of the Congregational church; E. M. Condit, ex-president of the Ohio society, and Dr. S. W. Fowler, of Delaware, Ohio, president of the society. Another feature of entertainment will be a monologue by Frank Leo, the entertainer, entitled "An Ohio Man Airs His Views on Woman and the Suffrage Question."

The Nautilus casino is easily reached by the electric car line or by automobile or other vehicle and all Ohio people in Daytona and vicinity who have not already made their plans to do so should now arrange to attend the meeting tomorrow afternoon.

COBURN COMING FOR TWO NIGHTS

"Everything new every season," like "Your money's worth or your money back," has become a watchword with Joe Coburn's big minstrels, and each season's return of this splendid attraction has demonstrated it is no idle press item in the advance notices. Clean comedy, splendid singing, and the latest and best in minstrelsy has also been forced into prominence with the amusement public by this jovial, hustling fun purveyor, until we do not question its authenticity and have learned to expect and depend upon one of the season's most enjoyable events. Music, mirth and melody, fun, comedy and novelty, follow continuously throughout the big show, without a blemish or objectionable feature. From the "roost" to the box seats, Joe Coburn's patrons receive their money's worth. We are always glad to announce the coming of this company. Don't forget the date, February 3 and 4, at the New Daytona theater.

The most important effects of "bad air" are due to its high temperature, and the ill effects of even a slightly elevated room temperature, such as 75, are regarded sufficiently clear to warrant warnings against overheating.

Then he said sadly: "I's afraid I can't stay; I only like chickens wiv legs on."

Mica mining in the United States started early in the nineteenth century in New Hampshire, which state supplied all the domestic production until about 1868, when mining was started in North Carolina and subsequently in other states. A WELL ATTENDED TEACHERS' MEETING

EAST COAST AND WEST COAST TEACHERS' ASSOCIATIONS OF VOLUSIA COUNTY HOLD UNION MEETING IN DE LAND.

According to agreement, the East Coast Teachers' association met January 29, at DeLand, in a union meeting with the west county association. More than half the teachers of the county were present, and the work was worth while.

State Superintendent Sheats gave a very interesting and instructive account of the growth of the public schools of Florida. He made plain the fact that the schools of Florida have leaped from log cabins to stone structures in only thirty years' time.

Dr. Hulley's talk on "Eye-Openers in Education" followed appropriately. He referred to the introduction into the schools of phisiology, physical culture and manual training. All of these improvements show the steady growth of the educational plan.

The afternoon was devoted to short talks, given by Edith Balster, Daytona; Lilian Page, DeLand; H. C. Marks, Daytona; Virginia Fair, Pierson.

The association adjourned at 3:00 p. m., that all teachers responsible for any part of the educational exhibit at the fair might gather their material and incidentally might make note of the prizes they received, for the exhibits from all the schools of the county were so good that the prizes were quite evenly distributed.

The two associations meet again, separately, in February.

One Definition of Aristocrat.

One day a caller, wishing to make friends with the little fellow, took him on his knee and asked: "Are there any fairies in your woods here, Robert?" "No," replied Robert promptly, "but there are plenty of edible fungi."—Youth's Companion.

W. L. BADGER NOTES MANY IMPROVEMENTS

W. L. Badger, of Minneapolis, Minn., was a pleasant caller at the News office Saturday, coming in to personally request that the paper be delivered to him while he is here. He stated that he would not feel as if he were in Daytona without the Daily News, which he greatly enjoys reading. Mr. Badger, who has spent a number of seasons here and was last winter a guest at the Princess Issena, in company with Mrs. Badger and their son, Lester, is again at that popular Seabreeze hotel. Mr. Badger said he was glad to note the progress and development in evidence in Daytona. He spoke of the Esplanade Burgoyne as a great attraction and also the handsome band casino which Commodore Burgoyne is building for the city and while at the News office left $5 as a contribution to the chair fund for the casino. Mr. Badger also spoke with the greatest commendation of the proposed building of hard-surfaced roads here and the bonding of the district for that purpose and said it was one of the best investments that could be made by the people of any section. Mr. Badger did not bring his automobile south this season, but said that with the prospect of miles of new, hard-surfaced roads, he certainly would have it here next winter.

Danger in "Stuffy Rooms."

The most important effects of "bad air" are due to its high temperature, and the ill effects of even a slightly elevated room temperature, such as 75, are regarded sufficiently clear to warrant warnings against overheating.

Couldn't Fool Him.

Herbert was asked to stay for dinner. His hostess, knowing his fondness for chicken, laughingly told him they were going to have chicken for dinner. Herbert asked to see the fowl, and she took him to the kitchen and opened the oven door. To Herbert's surprise, he beheld a roast of beef. Then he said sadly: "I's afraid I can't stay; I only like chickens wiv legs on."

Unfortunate in His Friends.

Use of Mica in the Industries.

Mica mining in the United States started early in the nineteenth century in New Hampshire, which state supplied all the domestic production until about 1868, when mining was started in North Carolina and subsequently in other states. At present the greater part of the sheet mica is used in the electrical industry, and most of the scrap mica is ground for use in the decorative trade, especially in wallpaper.

A WELL ATTENDED TEACHERS' MEETING

EAST COAST AND WEST COAST TEACHERS' ASSOCIATIONS OF VOLUSIA COUNTY HOLD UNION MEETING IN DE LAND.

According to agreement, the East Coast Teachers' association met January 29, at DeLand, in a union meeting with the west county association. More than half the teachers of the county were present, and the work was worth while.

State Superintendent Sheats gave a very interesting and instructive account of the growth of the public schools of Florida. He made plain the fact that the schools of Florida have leaped from log cabins to stone structures in only thirty years' time.

Dr. Hulley's talk on "Eye-Openers in Education" followed appropriately. He referred to the introduction into the schools of phisiology, physical culture and manual training. All of these improvements show the steady growth of the educational plan.

The afternoon was devoted to short talks, given by Edith Bainter, Daytona; Lilian Page, DeLand; H. C. Marks, Daytona; Virginia Fair, Pierson.

The association adjourned at 3:00 p. m., that all teachers responsible for any part of the educational exhibit at the fair might gather their material and incidentally might make note of the prizes they received, for the exhibits from all the schools of the county were so good that the prizes were quite evenly distributed.

The two associations meet again, separately, in February.

One Definition of Aristocrat.

"Lola," queried the teacher of a small pupil, "what is an aristocrat?" "An aristocrat," replied the little miss, "is a poor woman who takes in washing and brags about her rich relatives."

Scientific Child.

Robert, the four-year-old son of a scientific man had lived in the country most of his short life. One day a caller, wishing to make friends with the little fellow, took him on his knee and asked: "Are there any fairies in your woods here, Robert?" "No," replied Robert promptly, "but there are plenty of edible fungi."—Youth's Companion.

W. L. BADGER NOTES MANY IMPROVEMENTS

W. L. Badger, of Minneapolis, Minn., was a pleasant caller at the News office Saturday, coming in to personally request that the paper be delivered to him while he is here. He stated that he would not feel as if he were in Daytona without the Daily News, which he greatly enjoys reading. Mr. Badger, who has spent a number of seasons here and was last winter a guest at the Princess Issena, in company with Mrs. Badger and their son, Lester, is again at that popular Seabreeze hotel. Mr. Badger said he was glad to note the progress and development in evidence in Daytona. He spoke of the Esplanade Burgoyne as a great attraction and also the handsome band casino which Commodore Burgoyne is building for the city and while at the News office left $5 as a contribution to the chair fund for the casino. Mr. Badger also spoke with the greatest commendation of the proposed building of hard-surfaced roads here and the bonding of the district for that purpose and said it was one of the best investments that could be made by the people of any section. Mr. Badger did not bring his automobile south this season, but said that with the prospect of miles of new, hard-surfaced roads, he certainly would have it here next winter.

MARQUIS OF ABERDEEN AND LADY ABERDEEN COMING TO DAYTOMA

FORMER GOVERNOR-GENERAL OF CANADA AND VICEROY OF IRELAND TO BE IN DAYTONA FEBRUARY 9 AND 10.

(Special to the News).

NEW YORK, Jan. 31.—The Marquis of Aberdeen and Temair, former governor-general of Canada and, until recently, viceroy of Ireland for almost ten years, and Lady Aberdeen, who formally inaugurated their campaign here this week for funds to save the Irish babies and to continue the welfare work among the children and sickly mothers of Ireland, will be in Daytona on Wednesday and Thursday, February 9 and 10.

On account of lack of funds due to the European war, the Women's National Health association of Ireland, of which Lady Aberdeen is president, has been sadly hampered in its activities since the war began and is in actual danger of collapse unless money is forthcoming soon to continue the work. Lady Aberdeen inaugurated the association while Lord Aberdeen was viceroy of Ireland in 1907 and has been its president ever since that time. She has taken a most active personal interest in this great humanitarian movement, which is conducted entirely on non-political and non-sectarian lines.

The marchioness described in her address at Carnegie hall what the association had done in the way of saving lives and improving health conditions in Ireland among the poor who need medical attention and other care. She said that there were 50 less deaths each week now from tuberculosis than in 1907 when the organization started, and that through its efforts there were about 20,000 fewer people in Ireland suffering from the disease in 1907. She told of the milk depots established where poor people could get small amounts of safe milk at a low price and of the 160 or more visiting nurses supported by the health association who go about from home to home among the poor doctoring to their needs and teaching them how to safeguard their health.

Then she told how the war had reduced their funds so that much of the work had to be curtailed and that the life of the organization itself was threatened. For this reason she and Lord Aberdeen had come to the United States, she said, to raise money with which to continue the work which meant the saving of hundreds of lives.

Lady Aberdeen described the miserable conditions in many of the cities of Ireland, showing the need there particularly for welfare work among the poor. She declared that there are in Dublin, for instance, as many as 12,000 families, often with five and six persons in a family, living in single-room tenements; and many times this single room into which so many are huddled is a damp and dirty cellar, unlighted and unventilated, or an unclean and unsanitary garret. It is among such conditions especially that the work of the Women's National Health association is needed, said Lady Aberdeen.

John D. Crimmins, of this city, who has just gone to Palm Beach, Florida, with his daughters, Misses Evelyn and Mercedes Crimmins, is chairman of the committee, with headquarters at 624 Madison avenue, to receive contributions for the fund which the Aberdeens are raising to help save the lives of Irish babies.

Victor R. Manning, who formerly was engaged in welfare work in Jacksonville and who more recently has been president of the state conference of charities of the state of Oregon, is travelling with Lord and Lady Aberdeen arranging for their tour in the United States.

While an automobile party from this city was in DeLand one evening last week some practical joker demonstrated the uselessness of locking a wheel of a car with a chain to protect it from thieves. A fairly heavy chain was used, but when they returned to the car, after an absence of a few hours, the chain and lock were neatly piled beside the wheel, the chain having been cut in two.

Daily Thought.

It is a great step in the interpretation of life when we have discovered that all events are ultimately spiritual. —Brierley.

Remember Essential Things.

The limit upon memory is the limit of your attention and concentration. Successful business men have really splendid memories for the things more essential. They have them by virtue of their concentration, and if they say they are forgetful it will be found that they are only forgetful of the things which they do not elevate to the business standard.

Presidential Candidates.

The only restrictions imposed upon a candidate for the presidential office are that he shall be a born citizen of the United States, one who has been a resident of the United States for 14 years. The Constitution expressly provides that "no religious test shall ever be required as a qualification to any office or public trust under the United States."

Puny Caution.

Caution is a very puny form of morality. "He that observeth the wind shall not sow; and he that regardeth the clouds shall not reap." It is as true politically as of other spheres of life that "he or she who lets the world, or his own portion of it choose his plan of life for him has no heed of any other faculty than the apelike one of imitation."

Lands Practically Without Milk.

Japan and China are countries whose great populations have existed and increased without one of the articles of diet that to Americans seems an elementary food—milk. There is practically no production of milk in either of these countries, almost the only supply being imported from foreign nations in the form of condensed milk in cans.

Cheerfulness Attracts.

A man finds himself pleased, he does not know why, with the cheerfulness of his companion. It is like a sudden sunshine that awakens a secret delight in the mind, without its attending to it. The heart rejoices of its own accord, and naturally flows out into friendship and benevolence toward the person who has so kindly an effect upon it.—Addison.

MAIL COPIES OF THE DAILY NEWS TO FRIENDS IN NORTH

The Daily News is in receipt of a card signed K. F. Fenton, Scranton, Pa., requesting a sample copy and also literature on Daytona. A pictorial supplement has been mailed together with a copy of the paper. This is but [illegible] of the numerous requests which reach this office, and few people realize the merits of a live newspaper from a boosting standpoint. The Daily News was started 12 years ago and has mailed thousands of copies from coast to coast throughout the country and has been a large factor in helping to make Daytona the "Prettiest Winter Resort in the World." After reading the paper, why not put a one-cent stamp on it and mail it to your friends at home who are not fortunate enough to enjoy the sunshine and beauties of this beautiful country?

DELIGHTFUL DANCING PARTY AT THE MAGNOLIA HOTEL

A delightful dancing party was given Saturday evening on the spacious porch of the Magnolia hotel for their guests and their friends. The music was furnished by the Grafonola on which was played the latest dance records. Prof. J. G. Williamson, an instructor of dancing from Manchester, N. H., very cleverly demonstrated the new dance creations which have been the rage in New York City recently. During the evening the guests were entertained by the Magnolia Symphony Quartette, a newly formed musical organization, consisting of Miss Blanche Metzger, a graduate of the University of Leipsig, Germany; Miss Kitty Updegraffe, a gifted and talented soloist of Elmira, N. Y.; R. C. Crippen, who was leader of the Otterbien College Glee club, and J. W. Faulconer, formerly of the Polytechnic School of Virginia quartette. R. L. McKenzie, an admirable mimic, gave original witty readings, among them being one entitled "Diamond Dust," which was mirth-producing. The merry party dispersed at midnight declaring Miss Lee C. Bowers to be a charming hostess.

OTAY WIPED FROM MAP; 50 DROWN IN FLOOD WHEN DAM GIVES WAY

SAN DIEGO, Jan. 31.—As a result of the breaking of the Otay dam Thursday, every dwelling and house of business in the city has been swept from the map. The property damage already amounts to $2,000,000 and at least 50 souls have perished in the flood.

The fertile Otay valley which is a great agricultural center, is utterly devastated and half of the buildings in Tiajuana, Mexico, are washed away. Twenty-one bodies of Otay citizens have been recovered and many more lie entombed in the ruins far below water level. Otay is now under martial law with United States marines on guard.

BANDITS KILL TWO IN BUFFALO AUTO HOLD-UP

(By International News Service.)

BUFFALO, Jan. 31.—Fred C. Teiper, a prominent business man, and his mother, Mrs. Charles Teiper, a sociey a leader in this city, were instantly killed while Grace Teiper is dying of a fractured skull as the result of an attack made upon them by negro highwaymen early this morning.

The party were motoring through the suburbs of Buffalo when several masked bandits leaped from the bushes and commanded the car to halt and its occupants to alight. MUNITION TRUST TO PAY FOR PREPAREDNESS

(By International News Service.)

WASHINGTON, Jan. 31.—President Wilson will get his demanded naval and coast artillery increases and the men who will profit most by them will pay the cost. Such is the opinion of political leaders today.

Opposition senators and congressmen are already hearing from their constituents as results of the president's speeches.

But the big suggestion in the preparedness plan is that a way has been found to get around the constitution and impoe a tax on munition manufacturers. The sharpest legal minds in cogress are working to this end and leaders are assured that it can be done. In this way the munition trust will be made to pay the nation's bill for defense.

It is predicted, however, that the scheme for a bigger army will be defeated except that reserve rifles will be voted and the militia brought up to full strength.

UNITED STATES SUBMARINE, K-5 IS MISSING; SEARCH IN PROGRESS

(By International News Service.)

CHARLESTON, Jan. 31.—The United States submarine, K-5, commanded by Lieutenant R. C. Brady with Lieutenant Frazier as first officer, is missing. The little under-water craft was last seen by other vessels of the fleet on Sunday morning.

The tender, Panther, and the cutter, Yamacraw, sailed for here early today in an attempt to find her. Officials believe some minor accident aboard delayed the submarine in reaching port.

Four other ships in government service joined the search this morning but, up to noon, no trace of her had been reported. Among the crew of 26 men was Electrician Clarence Wilson, of Georgia. Oter boats of the fleet arrived in Charleston harbor safely today.

EDMONDS RETURNS FROM 10-DAY TOUR

Richard H. Edmonds and his family, of Baltimore, who are spending the winter in Daytona, returned late Saturday evening from an extensive motor trip, lasting ten days, which embraced many points along the West Coast of the state.

Mr. Edmonds made the following announcement in regard to the highway conditions: "The roads between here and Tampa are fairly good in part, very good in part, and abominably bad with heavy sand for a distance of 15 or 16 miles. I think that the progress of the West Coast during the last two years along these lines is remarkable and when Polk county votes money for the improvement of its pieces of bad highway, the entire trip will be a great delight to all motorists."

Richard H. Edmonds is well versed on the question of good roads and takes great interest in the progress of Florida in that direction. He expects to motor over the state in general inspection tours during the winter months.

Every day is summer in Daytona.
